SUMMARY

- Proactive final-year Computer Science (Data Science) student with demonstrated experience in building full-stack applications and integrating with REST APIs.
- Proven ability to analyze project requirements and develop robust, user-focused solutions to improve efficiency.
- Skilled in Python, Node.js, REST APIs, and modern development practices.
- Eager to apply my skills in backend development to contribute to the innovative software solutions at Qscripts.

TECHNICAL SKILLS

- **Backend:** Python, Node.js, Express.js, REST API, API Integration
- **Databases:** MySQL, MongoDB
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Languages:** Java, C++, C
- **Version Control & CI/CD:** Git, GitHub, GitHub Actions
- **Developer Tools:** Docker, Postman, VS Code
- **Data Science & Analytics:** Pandas, NumPy, Power BI, MS Excel

PROFESSIONAL EXPERIENCE & LEADERSHIP

Student Brand Ambassador	UniCourt India Jul 2025 to Present
• Represented UniCourt's LDaaS vision, promoted initiatives, and built student-industry engagement.	
Co-Lead, Website Team	IEEE Bangalore SAC Mar 2025 to Present
• Collaborated with 5+ developers to design and manage websites for IEEE initiatives, improving website performance and streamlining content delivery for over 500+ users.	
Webmaster	IEEE VCET Student Branch Feb 2025 to Present
• Actively participated in organizing and executing various technical and non-technical events for the IEEE student branch.	
Vice President, CSE (Data Science) Branch	VCET Jan 2025 to Aug 2025
• Led student initiatives and organized over 5 technical events, engaging more than 100 students.	

PROJECTS

Resume Analyzer (Full-Stack Project)
• Developed a full-stack application to analyze resumes and rank applicants based on skill relevance, reducing recruiter screening effort by an estimated 50%.

EDUCATION

Vivekananda College of Engineering and Technology , Puttur — 2022-2026
- BE in Computer Science & Engineering (Data Science)
- Current CGPA: 7.15/10

CERTIFICATIONS

Postman Classroom Program - NITK Surathkal (Jun 2024)
- Gained experience in API testing, HTTP methods, automation with scripts, environment variable management, and response analysis.
